WORK EXPERIENCE

Technical Lead

Team Meraki

Nov2017 - Current

We are about a number of six. With a common motive among us to create awareness among students, we formed as a group. Later many of our friends from our college joined with us. I have worked as Technical Lead for Team Meraki. With all my team support, we developed a website for Team Meraki.

Here is the link of the website: <http://teammeraki.in>

ENGINEERING/TECHNOLOGY

Languages – C, C++, Python, Java

Web Components – HTML, CSS, Javascript, JQuery, Bootstrap

Database – MySQL

Development Tools – Sublime Text, Github, Terminal, Eclipse

EXTRA CURRICULAR ACTIVITIES

- Organized environmental awareness meet for students in our college on behalf of Team Meraki (Voluntary Organisation).
- Worked as Brand Manager for Intern Theory Career Solutions LLP.

India

PROJECTS

Project

Buddy - A Social Networking Site

Period:

May 2018 - June 2018

Buddy is a web-based application that was developed using PHP and MySQL. It offers many features to its users like they can add/remove their friends, post on the wall, can like the posts, can update their profile.

Project

Investigating TMDb Movie dataset using Numpy, Pandas and Matplotlib

Period:

June 2018 - June 2018

This project was done as a part of the Data Analyst Nanodegree program in Udacity. Five steps of Data Analysis process are performed on movie dataset, to view patterns among them and to visualize correlations among the data.

Project

News Scrapping from College Website

Period:

May 2018 - May 2018

To keep updated with the news that was published on the college website, we should browse it daily. So to automate this process, I developed a python program that scraps the news and links published on the college website at 9 PM daily and sends me a CSV file to my mail.

Project

Us Bike Share Data Analysis

Period:

May 2018 - May 2018

This project was done as a part of Data Analyst Nanodegree program. Us bike share data of three cities are analyzed and patterns like most popular route, frequent stations are analyzed.
