Work Experience

Technical Lead
Team Meraki

We are about a number of six. With a common motive among us to create awareness among students, we formed as a group. Later many of our friends from our college joined with us. I have worked as Technical Lead for Team Meraki. With all my team support, we developed a website for Team Meraki.

Here is the link of the website: http://teammeraki.in

- Travelling
- Online Classes
- Playing Cricket
- Photography

Extra Curricular Activities

- Organized environmental awareness meet for students in our college on behalf of Team Meraki (Voluntary Organisation).
- Worked as Brand Manager for Intern Theory Career Solutions LLP.

Project

Project 1   **Buddy - A Social Networking Site**

Project Summary

Buddy is a web-based application that was developed using PHP and MySQL. It offers many features to its users like they can add/remove their friends, post on the wall, can like the posts, can update their profile.

Project 2   **Investigating TMDB Movie dataset using Numpy, Pandas and Matplotlib**

Project Summary

This project was done as a part of the Data Analyst Nanodegree program in Udacity. Five steps of Data Analysis process are performed on movie dataset, to view patterns among them and to visualize correlations among the data.

Project 3   **News Scrapping from College Website**

Project Summary

To keep updated with the news that was published on the college website, we should browse it daily. So, to automate this process, I developed a python program that scraps the news and links published on the college website at 9 PM daily and sends me a CSV file to my mail.

Project 4   **Us Bike Share Data Analysis**

Project Summary

This project was done as a part of Data Analyst Nanodegree program. Us bike share data of three cities are analyzed and patterns like most popular route, frequent stations are analyzed.
